PROFESSIONAL SUMMARY

Senior Developer with over 5 years of experience in Full-Stack Web Development and 3+ years of Unity Engine expertise. Proven track record of leading cross-functional teams (UI/UX, Web, Education) to deliver high-impact interactive workshops and gameplay features. Expert in C# and Ruby on Rails, specializing in architectural design, rapid prototyping, and bridging the gap between technical requirements and educational outcomes. Strong background in mentoring junior developers and streamlining production pipelines.

CORE COMPETENCIES

- **Software Architecture:** OOP Principles, Design Patterns, MVC, Technical Documentation.
 - **Game Development:** Unity 2D/3D, C# Scripting, Physics, Animation Pipelines, Visual Scripting.
 - **Full-Stack Engineering:** Ruby on Rails, JavaScript, MySQL, RESTful APIs, HTML5/CSS3.
 - **Leadership:** Project Management (Producer/Designer roles), Mentorship, Stakeholder Management.
 - **Tools:** Git/GitHub, Visual Studio, Agile/Scrum Methodologies, Rapid Prototyping.
-

PROFESSIONAL EXPERIENCE

AMTIL INC | *Senior Unity Developer / Project Lead* | **November 2019 – Present**

- **Leadership:** Spearhead development for the Education Team, overseeing the end-to-end creation of interactive workshops that improved user retention and learning efficiency.
- **Architecture & Production:** Formulate and document standardized technical procedures for transitioning experimental prototypes into scalable production environments.

- **Cross-Functional Management:** Serve as Lead Designer and Producer for month-long sprints, managing a diverse team of 10+ developers and designers to hit aggressive milestones.
- **Advanced Tooling:** Developed custom Unity tools and gameplay systems to automate complex animations, reducing manual production time for video lectures by **[35%]**.
- **Strategic Growth:** Actively evaluate and integrate emerging technologies into the company stack to maintain a competitive edge in interactive educational media.
-

IMMIGRANT SOCIAL SERVICES | *S.T.E.M. Program Director (Coordinator)* | **March 2017 – June 2020**

- **Scale & Strategy:** Orchestrated the deployment of S.T.E.M. curricula across three separate metropolitan sites, ensuring educational consistency for hundreds of students.
 - **Mentorship:** Developed a "Train the Trainer" program, mentoring group leaders in technical instruction and Lego Robotics, which increased program capacity by 30%.
 - **Stakeholder Liaison:** Acted as the primary technical point of contact for parents, partners, and organizational leadership, managing expectations and reporting on academic outcomes.
 - **Competition Coaching:** Led the FIRST Lego League initiative, managing team logistics, technical troubleshooting, and strategic preparation for regional competitions.
-

EDUCATION & CERTIFICATIONS

- **Professional Certification:** **C# Programming and Unity Game Development – Coursera**
 - **Academic Background:** Mathematics & Computer Science, Queensborough Community College (Graduated 2017)
 - **Technical Diploma:** East New York Transit Technical High School
-

TECHNICAL PROJECT HIGHLIGHTS

- [**XIVCOLLECT \(Final Fantasy XIV Tracking Web App\)**](#): Built a responsive, web-based tracking application for Final Fantasy XIV using React, Next.js, and TypeScript. Integrated external gaming APIs and implemented client-side profile persistence to handle fluid state management and smooth data rendering.
- [**GameHype \(Automated Game-Tracking Discord Bot\)**](#): Developed an automated game release tracking bot utilizing C# and the Discord.Net library. Engineered real-time data fetching through the IGDB API, integrated Twitch OAuth for secure API authentication, and utilized .NET User Secrets to protect environment credentials.
